

SCENT DIFFUSER

MODEL: NTA05D

Scent diffuser employs our advanced scent diffusion system which uses **“submicron micro diffusion technology”** to provide the most effective and safe fragrance diffusion for a scented room.

- Capacity: 110ml
 - Battery: 3x AA Duracell Battery
 - Adjustable at intervals 01 to 60 minutes, fully programmable
 - Effective Area: About 500 sq ft.
 - Dimensions: 150x65x155 mm
-
- Minimal liquid consumption rate
 - Scented air particles easily travel in thin air and then evaporate without leaving any trace or residue.
 - Since there is no heat used, the chemical properties of the fragrances are not altered, which provides a more healthy fragrance diffusion.
