

SCENT DIFFUSER

MODEL: NTA07D

Scent diffuser employs our advanced scent diffusion system which uses **“submicron micro diffusion technology”** to provide the most effective and safe fragrance diffusion for a scented room.

- Capacity: 500ml
- Power: 5V Adaptor/4x D Alkaline Batteries
- Adjustable scent intensity: 5-30 seconds
- Adjustable pause intervals: 90-900 seconds
- **App-based**, works with both iOS and Android, can control the timing, frequency & Intensity. Set up to 5 time period with different start/end time.
- Effective Area: 2400 sq ft.
- Dimensions: 167x44x245 mm
- Minimal liquid consumption rate
- Scented air particles easily travel in thin air and then evaporate without leaving any trace or residue.
- Since there is no heat used, the chemical properties of the fragrances are not altered, which provides a more healthy fragrance diffusion.
